

HOT WORK MANAGEMENT DURING CONSTRUCTION

ALLIANZ RISK CONSULTING

INTRODUCTION

Hot work is defined as any activity that involves open flames or produces heat and/or sparks capable of initiating fires or explosions. Examples of hot work include: welding, cutting, grinding, drilling, soldering, brazing, torch-applied roofing, etc. Hot work also includes electrical work in areas which may contain flammable or explosive atmospheres. This list is not exhaustive, but should serve to highlight the type of activity which constitutes hot work.

PERMIT ISSUER

-

HOT WORK PERMIT BEST PRACTICES

Hot work permits should be issued for any and all hot work that is conducted outside designated safe hot work areas (such as, maintenance shop areas that are arranged for safe cutting and welding activities) Hot work permits should be issued only by adequateh.re
